

LEAPS PROGRESS REPORT

LAW ENFORCEMENT AERIAL PLATFORM SYSTEM (LEAPS) PROVIDES AERIAL OBSERVATION SURVEILLANCE FOR THE CITY OF LANCASTER AND THE LASD

During March 2017, LASD formally logged 39 LEAPS service calls where tactical field operations were supported. LEAPS was dispatched 105 times for a total of 25.4 hours and was airborne and available for 298.8 hours.

LEAPS provided airborne observation and support in the arrest of 6 suspects. LEAPS also assisted the Lancaster Station Narcotics enforcement team with the surveillance of several suspected narcotics trafficking locations.

The LEAPS Sensor was replaced with a loaned Tase 400 sensor, providing greatly enhanced night sensor performance. Additional training and orientation has been provided to LASD deputies.

Increased utilization of the LEAPS system was a result of improved visual flight rules weather in March. Surveillance observations were maintained to enhance the LASD Lancaster Station's protection of the Community.
