Vol 3-5

LAW ENFORCEMENT AERIAL PLATFORM SYSTEM (LEAPS) PROVIDES AERIAL OBSERVATION SURVEILLANCE FOR THE CITY OF LANCASTER AND THE LASD

During April 2017, LASD formally logged 28 LEAPS service calls where tactical field operations were supported. LEAPS was dispatched 79 times totaling 19.3 hours and was airborne and available for 294.5 hours.

LEAPS provided airborne observation and support in the arrest of 9 suspects. LEAPS also assisted the LASD Palmdale Sheriff's Search and rescue team with a remote dispatch on 9 April in Llano for an elderly missing person with Alzheimer's.

The LEAPS Sensor was replaced with a loaner TASE 400 sensor thru 19 April, providing greatly enhanced day and night sensor performance. Additional training and orientation has been provided to LASD deputies.

In addition to providing a force multiplier to the LASD in support of criminal activity suppression and deterrence, and search and rescue support, the LEAPS activity returns 99% of its revenue to the Lancaster community in the form of (1) salaries for pilots and systems support staff, (2) ongoing support from businesses at Fox Field for airframe maintenance and FAA compliance, avionics support and fuel, (3) ongoing support from local Lancaster businesses for purchasing and fabrication of LEAPS components and subsystems, and (4) local taxes and fees. This is further underpinned by Aero View LLC's commitment to remain headquartered in Lancaster for ten years. Taxes and fees account for less than 1% of costs. The LEAPS also provides the City of Lancaster with tactical and strategic reconnaissance support for (1) civic functions and activities, (2) emergency first responder support and (3) Department of Public Safety activities.
