## LAW ENFORCEMENT AERIAL PLATFORM SYSTEM (LEAPS) PROVIDES AERIAL OBSERVATION SURVEILLANCE FOR THE CITY OF LANCASTER AND THE LASD

During October 2017, LASD formally logged 104 LEAPS service calls where tactical field operations were supported. LEAPS was dispatched 145 times totaling 35.8 hours and was airborne and available for 340.6 hours.

LEAPS provided airborne observation and support in the arrest of 16 suspects. Additionally, LEAPS was used to support patrol deputies as they provided security during the Lancaster City Halloween and Harvest Festival. Utilization of LEAPS during such events provides essential aerial force-multiplication capability for law enforcement, enhancing overall safety for Lancaster Citizens.

LASD Deputies are utilized as LEAPS ground system operators. Operators are able to easily search for and obtain recorded video from the LEAPS system. Video documentation of specific incidents may then be utilized for evidentiary or prosecution purposes, as needed.

*In addition to providing a force multiplier to the LASD in support of criminal activity suppression and deterrence, and search and rescue support, the LEAPS activity returns 99% of its revenue to the Lancaster community in the form of (1) salaries for pilots and systems support staff, (2) ongoing support from businesses at Fox Field for airframe maintenance and FAA compliance, avionics support and fuel, (3) ongoing support from local Lancaster businesses for purchasing and fabrication of LEAPS components and subsystems, and (4) local taxes and fees. This is further underpinned by Aero View LLC's commitment to remain headquartered in Lancaster for ten years. Taxes and fees account for less than 1% of costs. The LEAPS also provides the City of Lancaster with tactical and strategic reconnaissance support for (1) civic functions and activities, (2) emergency first responder support and (3) Department of Public Safety activities.*
