LAW ENFORCEMENT AERIAL PLATFORM SYSTEM (LEAPS) PROVIDES AERIAL OBSERVATION SURVEILLANCE FOR THE CITY OF LANCASTER AND THE LASD

During January 2018, LASD formally logged 158 LEAPS service calls where tactical field operations were supported. LEAPS was dispatched 166 times totaling 51.8 hours and was airborne and available for 324 hours.

LEAPS provided airborne observation and support in the arrest of 19 suspects. Additionally, during the month of January LEAPS directed patrol units to the location of an arson suspect as he fled from deputies on foot through the desert. Other assists included locating an occupied stolen vehicle secluded in a desert wash area. Aerial support by LEAPS was provided as units traversed busy city intersections during an emergent run to the hospital on a "child not breathing" call.

LASD Deputies are utilized as LEAPS ground system operators. Operators are able to easily search for and obtain recorded video from the LEAPS system to aid in criminal prosecutions.
